

# Roofing

Workbook and Tests

Maintenance,  
Repair, and  
Reroofing

# Preface

The California State Department of Education, through the Bureau of Publications, provides for the development of instructional materials for apprentices under provisions of the California Apprentice Labor Standards Act. These materials are developed through the cooperative efforts of the Department of Education and employer-employee groups representing apprenticeable trades.

This edition of *Maintenance, Repair, and Reroofing* was planned and prepared under the direction of the California Educational Advisory Committee for the Roofing Industry, with the cooperation of the State Joint Roofing Industries Apprenticeship Committee. The members of this committee include representatives of the Roofing Contractors Association of California and representatives of local unions. Employer representatives serving on the Educational Advisory Committee are Robert Culbertson, Sacramento; and Herman Little, San Jose. Representing employees are Joe Guagliardo, Fresno; Oscar Padilla, Los Angeles; and William Penrose, San Jose. M. Duane Mongerson, Oakland, served as Committee Adviser; and John Goveia, Oakland, prepared the initial draft of this manual. Bob Klingensmith, Publications Consultant, Apprenticeship, coordinated activities for the Bureau of Publications.

This publication is one of a series of nine individually bound units of instruction for roofing apprenticeship classes. These books reflect the continuing cooperative effort of labor, management, local schools, and the Department of Education to provide the best instructional materials possible for California apprenticeship classes. They are dedicated to excellence in the training of roofing apprentices.

Dear John:

I discussed with selected members of the State Joint Roofing Industries Apprenticeship Committee, your participation in the writing of the textbook titled, Maintenance, Repairs and Reroofing.

The Committee would like to thank you again for writing the initial draft of the textbook. Your contributions made it possible for the Committee and Arthur Brown to put together a very good roofing manual. In terms of your resume, please feel free to list your contribution to the textbook as a co-author.

We hope that you will also assist us in editing the draft copy of the new Single-Ply textbook.

Sincerely,

M. Duane Mongerson  
Director of Apprenticeship Training
